

Bearing No. Bustin Abec 7

Size (mm)	8x22x7
Width (mm)	7
Bearing number	Bustin Abec 7
Bustin Abec 9's	Upgraded construction techniques allow for a more precision ride.
Bore Diameter (mm)	8
Outer Diameter (mm)	22
- Bearings Spacers included	get better alignment and wheel performance
- High-grade P5 Stainless Steel	only the best materials make the best bearings
- Removable inner and outer shields	cleans easy, stays that way
- Pre-lubricated with Skate Designed grease	developed in the lab to keep dirt out
- Accurately milled to within 1/20,000" precision	less than 1.5 microns
