

Bearing No. Bustin Built-in-6-ball

Size (mm)	8x22x7
Width (mm)	7
Bearing number	Bustin Built-in-6-ball
- Full-Pipe Races	extended inner races meet in the middle of the wheel to perfect wheel alignment
- 6 Ball bearings	1 fewer than the standard bearing, the increased size means more roll speed and momentum
Bore Diameter (mm)	8
- Stockage Shields	specifically designed to keep more grit out
Outer Diameter (mm)	22
- High-grade P5 Stainless Steel	only the best materials make the best bearings
- Removable inner and outer Shields	cleans easy, stays that way
- Pre-lubricated with skate designed grease	developed in the lab to keep dirt out
