

**Bearing No. SAKAC8M**

|                               |                 |
|-------------------------------|-----------------|
| d                             | 8 mm            |
| h                             | 42 mm           |
| B                             | 12 mm           |
| dk                            | 15,8 mm         |
| C1                            | 9 mm            |
| Angle                         | 14 °            |
| Weight                        | 0,032 Kg        |
| d2 max.                       | 25 mm           |
| l1 min.                       | 25 mm           |
| l2 max.                       | 56 mm           |
| r1 min.                       | 0,3 mm          |
| Thread (G)                    | M8 Tolerance 6g |
| Bearing number                | SAKAC8M         |
| Bore Diameter (mm)            | 8               |
| Basic dynamic load rating (C) | 7,2 kN          |
