

Bearing No. SYJ 55 KF+SYJ 511

|                               |                   |
|-------------------------------|-------------------|
| d                             | 50 mm             |
| A                             | 60 mm             |
| G                             | 16 mm             |
| H                             | 126 mm            |
| J                             | 171,5 mm          |
| L                             | 219 mm            |
| N                             | 27,5 mm           |
| H1                            | 63,5 mm           |
| N1                            | 20 mm             |
| s1                            | 32,5 mm           |
| A1                            | 40 mm             |
| B1                            | 59 mm             |
| H2                            | 24 mm             |
| Weight                        | 3,85 Kg           |
| Bearing number                | SYJ 55 KF+SYJ 511 |
| Bore Diameter (mm)            | 50                |
| Fatigue load limit (Pu)       | 1,25              |
| Basic dynamic load rating (C) | 43,6 kN           |
| Basic static load rating (C0) | 29 kN             |
