

Bearing No. UCFL205

|                               |                         |
|-------------------------------|-------------------------|
| S                             | 14,3 mm                 |
| d                             | 25 mm                   |
| A                             | 27 mm                   |
| B                             | 34,1 mm                 |
| H                             | 130 mm                  |
| J                             | 99 mm                   |
| L                             | 68 mm                   |
| N                             | 16 mm                   |
| A0                            | 35,8 mm                 |
| A1                            | 13 mm                   |
| A2                            | 16 mm                   |
| Weight                        | 0,64 Kg                 |
| Category                      | Mounted Units & Inserts |
| Bolt (G)                      | M14                     |
| Inventory                     | 0.0                     |
| Product Group                 | M06110                  |
| Bearing number                | UCFL205                 |
| Manufacturer Name             | FYH BEARING UNITS       |
| Weight / Kilogram             | 0                       |
| Bore Diameter (mm)            | 25                      |
| Minimum Buy Quantity          | N/A                     |
| Basic static load rating (C0) | 14 kN                   |
